Toxicology 163 (2001) 227–228

TOXICOLOGY

Contents of volume 163

Contents of Volume 163 No. 1

Articles

Tumourigenic studies on deltamethrin in Swiss albino mice
Y. Shukla, A. Arora, A. Singh (India) 1–9
Toxicity of *Fusarium moniliforme* culture material containing known levels of fumonisin B1 in ducks
J.D. Bailly, G. Benard, J.-Y. Jouglar, S. Durand, P. Guerre (France) 11–22
Association between cadmium concentration in rice and mortality in the Jinzu River basin, Japan
T. Ishihara, E. Kobayashi, Y. Okubo, Y. Suwazono, T. Kido, M. Nishijyo, H. Nakagawa, K. Nogawa (Japan) 23–28
Quantification of antiandrogen effect determined by Lightcycler technology
C. Nellemann, A.M. Vinggaard, M. Dalgaard, A. Hossaini, J.-J. Larsen (Denmark) 29–38

Immunotoxicology

Application of flow cytometry to immunotoxicity testing: summary of a workshop
Immunotoxicology Technical Committee (USA). 39–48
Evidence for estradiol-induced apoptosis and dysregulated T cell maturation in the thymus
S.A. Okasha, S. Ryu, Y. Do, R.J. McKallip, M. Nagarkatti, P.S. Nagarkatti (USA) 49–62
Preliminary assessment of the skin sensitizing activity of selected rodent carcinogens using the local lymph node assay
E.V. Warbrick, R.J. Dearman, J. Ashby, P. Schmezer, I. Kimber (UK, Germany) 63–69

Instructions to authors 71–72

Contents of Volume 163 No. 2–3

Articles

In vitro nephrotoxicity induced by *N*-(3,5-dichlorophenyl)succinimide (NDPS) metabolites in isolated renal cortical cells from male and female Fischer 344 rats: evidence for a nephrotoxic sulfate conjugate metabolite
G.O. Rankin, S.K. Hong, D.K. Anestis, L.H. Lash, S.L. Miles (USA) 73–82
Prophylactic efficacy of amifostine and its analogues against sulphur mustard toxicity
R. Vijayaraghavan, P. Kumar, U. Joshi, S.K. Raza, P.V. Lakshmana Rao, R.C. Malhotra, D.K. Jaiswal (India) . . 83–91
Protective effect of metallothionein against the toxicity of cadmium and other metals
J.D. Park, Y. Liu, C.D. Klaassen (USA) 93–100
Comparative uptake behavior of trace elements in adult and suckling rat lens
T. Nabekura, T. Minami, R. Hirunuma, S. Enomoto, R. Hori, Y. Ito (Japan) 101–105
Lead causes human fibroblasts to mis-sort arylsulfatase A
X.G. Chen, R.D. Poretz (USA) 107–114
Release of mercury from dental amalgam fillings in pregnant rats and distribution of mercury in maternal and fetal tissues
Y. Takahashi, S. Tsuruta, J. Hasegawa, Y. Kameyama, M. Yoshida (Japan) 115–126
Sulfur-to-nitrogen transnitrosation: transfer of nitric oxide from S-nitroso compounds to diethanolamine and the role of intermediate sulfur-to-sulfur transnitrosation
A.H. Al-Mustafa, H. Sies, W. Stahl (Germany). 127–136

Effects of Lewisite on cell membrane integrity and energy metabolism in human keratinocytes and SCL II cells
K. Kehe, S. Flohé, G. Krebs, H. Kreppel, F.X. Reichl, B. Liebl, L. Szinicz (Germany) 137–144
Diesel exhaust-induced airway hyperresponsiveness in c-Ha-*ras* transgenic mice
J.-i. Birumachi, A.K. Suzuki, K. Itoh, K. Hioki, C. Maruyama, Y. Ohnishi (Japan) 145–152
Thiram-induced cytotoxicity is accompanied by a rapid and drastic oxidation of reduced glutathione with consecutive lipid peroxidation and cell death
C. Cereser, S. Boget, P. Parvaz, A. Revol (France) 153–162
Evaluation of teniposide (VM-26)-induced toxicity on mouse spermatogenesis by flow cytometry
P. Jyothi, G.C. Jagetia, H. Krishnamurthy (India) 163–174
Cell cycle was disturbed in the MNNG-induced initiation stage during in vitro two-stage transformation of Balb 3T3 cells
M.-Z. Fang, W.-C. Mar, M.-H. Cho (South Korea) 175–184

Immunotoxicology
Detection of the effects of repeated dose combined propoxur and heavy metal exposure by measurement of certain toxicological, haematological and immune function parameters in rats
L. Institóris, O. Siroki, Ü. Ündeger, N. Basaran, B.D. Banerjee, I. Dési (Hungary, Turkey, India) 185–193
Factors that modify penicillamine-induced autoimmunity in Brown Norway rats: failure of the Th1/Th2 paradigm
E. Sayeh, J.P. Uetrecht (Canada) 195–211

Environmental and Nutritional Interactions
Different levels of *Schistosoma mansoni* infection increased the mutagenicity of benzo(a)pyrene, the activity of aryl hydrocarbon hydroxylase and the formation of hepatic microsomal hydrogen peroxide
H.A. Awney, H.E. Ghzlan, S.A. Sheweita, M.H. Mostafa (Egypt) 213–218

Erratum
Erratum to 'Effects of antioxidant enzymes in the molecular control of reactive oxygen species toxicology'
J.M. Matés (Spain) 219
